

# LAYOUT PLAN

valid up from 2009

## LEGEND:

### BUILDING COMPLEX 1

- Head Office
- National/international sales
- Accountancy and human resources department
- Advertising/marketing
- Injection moulding

### BUILDING COMPLEX 2

- Plant management
- Construction
- Procurement
- Extrusion
- Compounding

### BUILDING COMPLEX 3

- Training centre
- Tool manufacture

### BUILDING COMPLEX 4

- Expertise centre for application technology
- Maintenance
- Warehouse

### BUILDING COMPLEX 5

- Research and development
- Laboratory and quality assurance
- Guest area and cafeteria
- Assembly and packing
- Manifold construction

### BUILDING COMPLEX 6

- Logistic centre and shipping department
- Data processing

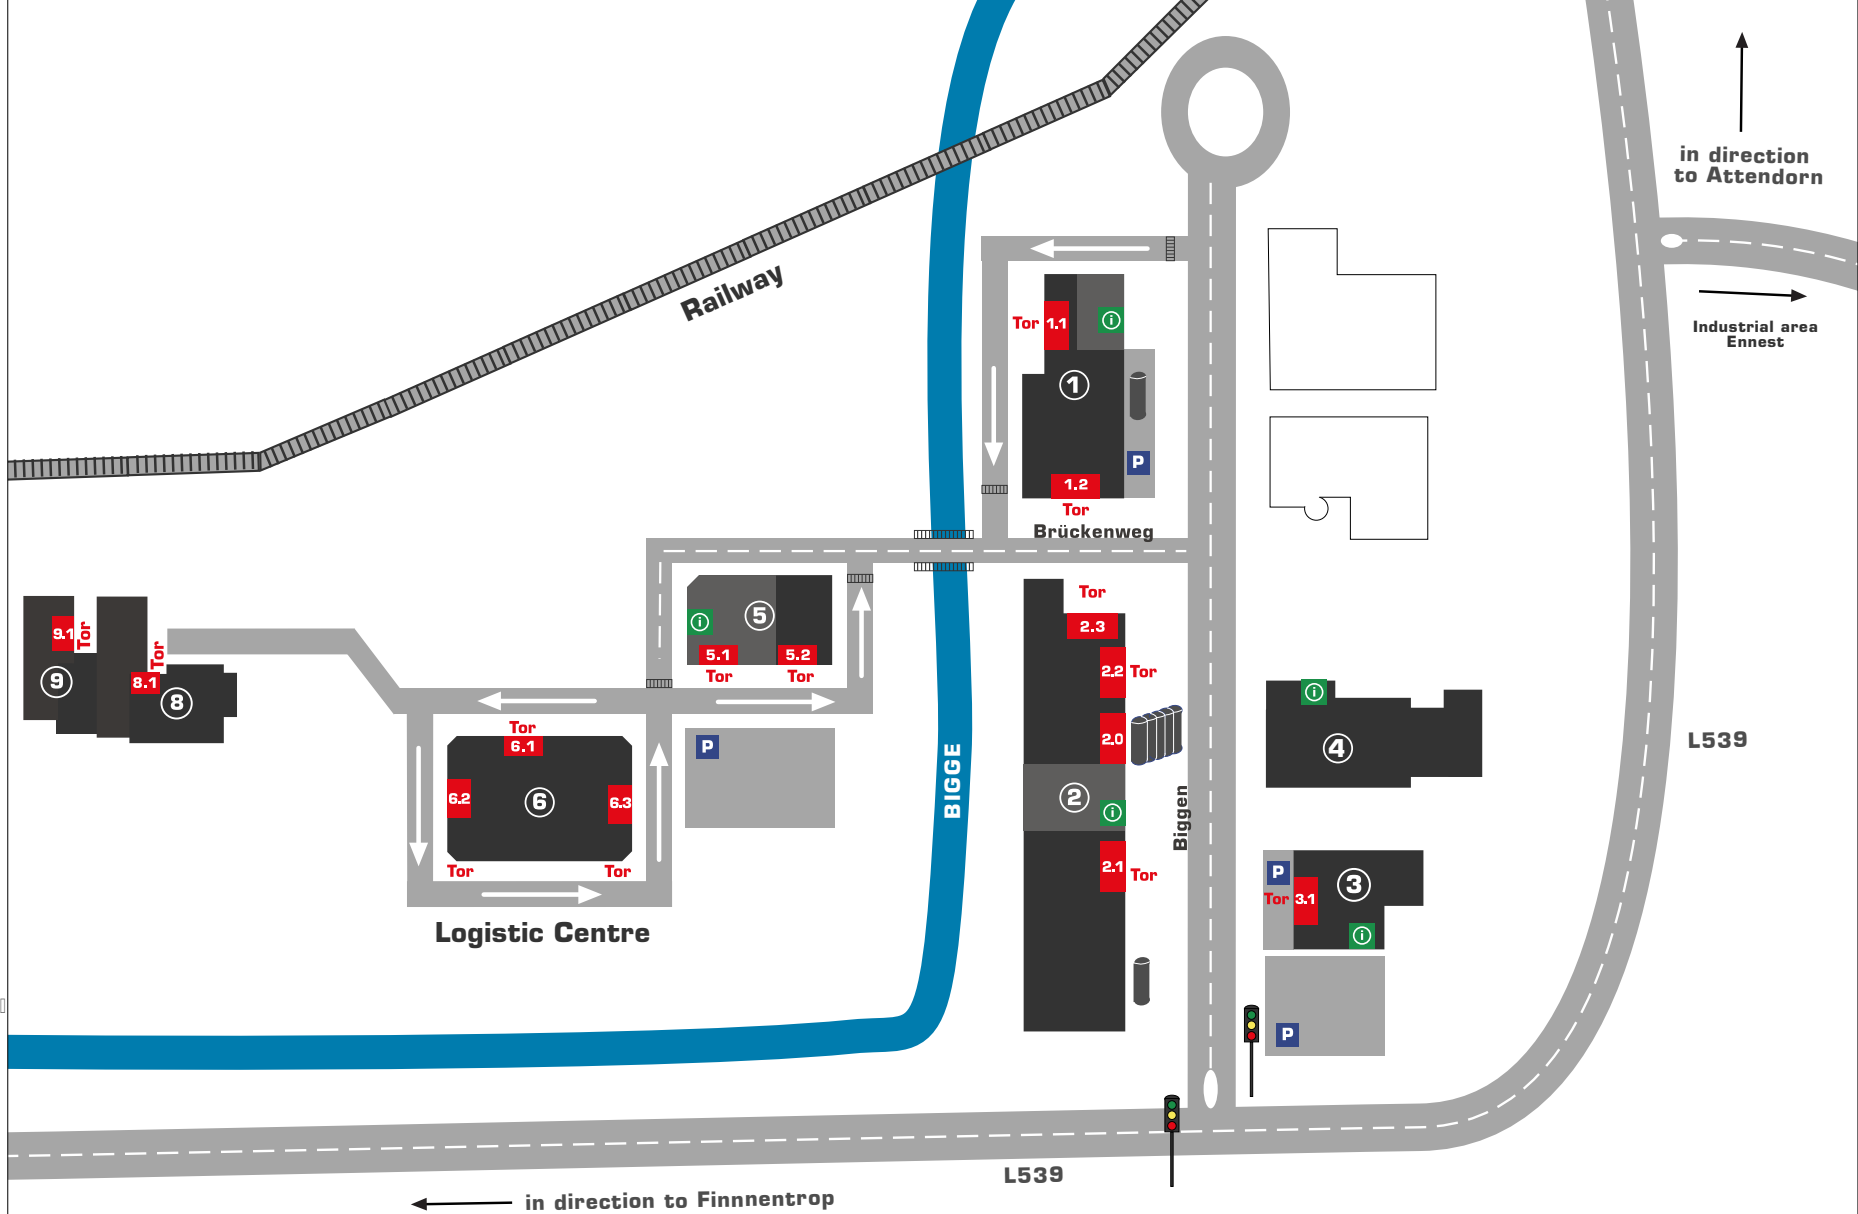

### BUILDING COMPLEX 7

- Grid fabrication climasystem

### BUILDING COMPLEX 8

- Fair- and sample construction
- Car valeting

 Information/Empfang

## How to find us:

You will easily get to us via A 45.

Coming from **Dortmund** you will take the Meinerzhagen exit. From there, you will drive approx. 20 km on L539 until Attendorn.

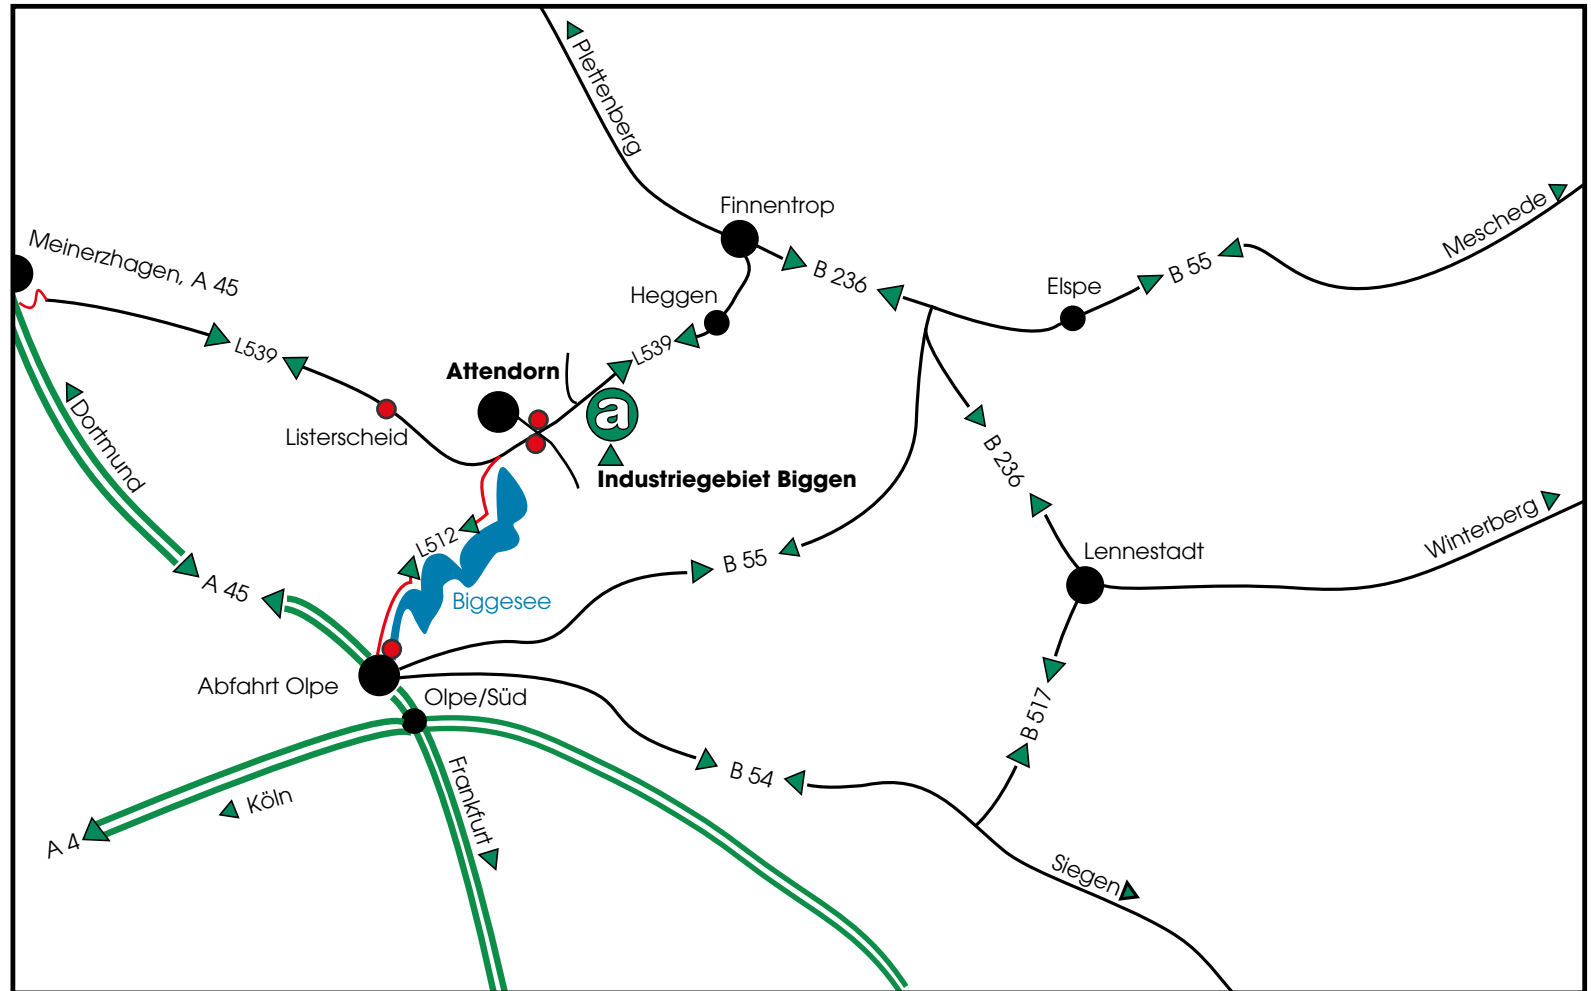

Coming from **Frankfurt** on A45, you will leave the motorway at Olpe exit (but not Olpe/Süd), shortly driving via B55, then L512 - you will reach Attendorn after approx. 17 km.

Coming from **Cologne**, you will drive on A4 and get in lane at the intersection Olpe/Süd in direction of Dortmund/Olpe. You will leave at Olpe exit and drive on B55/L512 along the Bigge lake towards Attendorn.

## Just before Attendorn:

Coming from Olpe, you will keep going straight ahead passing the first traffic light near the village "Neu-Lister-nohl". Coming from Meinerzhagen, you will turn left here. Now you will keep going straight ahead in direction of Finnentrop. You will pass Attendorn being on the left hand side and orientate yourself by the number of traffic lights. You will turn right after the fifth traffic light. Having arrived in the industrial area of Biggen, you will find your place of destination according to the layout plan on the second page.

Welcome !

## Important additional information:

- - Police camera
- - Streets where speed checks are regularly made
